END OF COPPER MINERS' STRIKE MAY GO TO A REFERENDUM VOTE

(By Associated Press.)
CHICAGO, March 11.—"We will sanction the ending of the copper miners' strike if the men themselves are willing," said President Moyer of the Western Federation of Miners.

He recommended a referendum vote to determine whether the strikers are willing to waive a demand for recognition of the union and surrender union cards.

Moyer said the federation was willing to accept changed working conditions which the companies made since the strike began, with the understanding that there be no prejudice against any strikers taken back. He said the men could make their own individual terms, without the federation's interference.

(By Associated Press.)
CHICAGO, March 11.—Allen Rees, senior counsel of the mining companies, said the men would be taken back without prejudice, excepting those who participated in violence and lawlessness. Other operators and attorneys commented along the same line.

(By Associated Press.)
CALUMET, Mich., March 11.—W. H. Ham Rickard, president of the Calumet local, announced he would conduct a referendum ballot on the miners returning to work as Moyer suggested. He declined to discuss the strike matters further.

CHINESE BRIGAND SACK AND BURN MISSIONARY TOWN

ARSENAL LOOTED AND CITY AT
THE MERCY OF
REBELS

(By Associated Press.)
PEKING, March 11.—Brigands sacked and burned the city of Lao Hoku, killed a Norwegian missionary and injured other foreigners. They looted buildings, piled torch and pistol, raided the arsenal, securing arms and ammunition, and departed with their loot. The city is an important missionary station.

HASBROUCK MINE HAS BIN FILLED WITH HIGH GRADE

The Hasbrouck mine at Gold Mountain, six miles south of Tonopah, has the making of a big property, according to an inspection of work done there by George Kernick, first recorder of that district.

Mr. Kernick is spending a lot of money in permanent development and is in a position to begin shipping ore at any time. He has built a large ore bin with a capacity of fifty tons and the bin is filled to the top. This ore has been sorted and will run about \$70 a ton, while the average of the mine is estimated at \$20. Nobody else is interested and Kernick is defraying the entire cost. The most important feature of the new work is a tunnel that Mr. Kernick has driven 500 feet into the mountain to tap the ledges indicated by the outcrop. He has drifted on the ledge to a considerable extent and has opened good milling ore bodies that run from four to twelve feet on the dip of the ledge. In the face of the tunnel there will give 200 feet of backs. Several faults were encountered and passed through and the ledge again picked up, proving richer each time. The ledges run northeast and southwest, the same as they do in Tonopah, and the values are carried in gold and silver at nearly the same ratio as Tonopah.

Mr. Kernick proposes to open the mine in good shape and then raise from one level to another to open up stopeing ground. The mine is equipped with a 40 horse power gasoline engine and hoist. A shaft is down 500 feet and crosscutting has been extended some distance. A fine bungalow and office for the use of Mr. Kernick and family have been built and the next move will be to construct a road to a point on the T. & G. railroad between McLean's and Klondike, where a siding will be put in and the ore can be delivered on the cars with a down hill haul of only four miles. The ore will be sent to the Western Ore Purchasing Company. The early shipments will be sent through Tonopah. Later it is proposed to build a mill, but that event is rather distant to be considered at this time. The Hasbrouck can today be claimed a mine with a very large tonnage in sight. The entire Gold Mountain district is brightening up and ere another year comes forth that district will be attracting the attention of the investors of the mining world and a new town will have been placed upon the map of Nevada.

Officers Killed By Aeroplanes

(By Associated Press.)
SALISBURY, England, March 11.—Captain Allen and Lieutenant Burroughs were killed when their biplane rudder bar broke, the machine crashing to the ground.

RING SIDE SEATS SOLD AND HOUSE ALMOST GONE

GREAT RUSH FOR HIGH-PRICED
SEATS SHOWS INTENSE
INTEREST

Entrants for the big fight tomorrow night are ready for the ring. George is down two pounds below weight and will have no trouble to weigh in tomorrow afternoon. He is resting today and the others are taking it easy, taking only moderate exercise so as to be in the pink of condition. Nick Abeiman has \$400 of Lodon money that is waiting for some one to come along with an even offer. That there are no odds speaks well for the evenness of the two main events and the public will have a run for their money.

Demand for seats has so far surpassed expectations that members of the Tonopah Athletic club have been induced to give up some of their ringside reservations for the sake of providing visitors with good seats. The members will be satisfied with seats in the general admission circle so long as they know they are accommodating those who waited too long for reservations.

It is a foregone conclusion that the house will be the largest seen in Tonopah and emphasizes the necessity for a larger auditorium for such events when lovers of the sport know they are going to have a square showdown.

None of the remaining tickets will be sold until the Goldfield band and visitors arrive at the theater, about 7:45 p. m. To satisfy a number of inquiries, the Bonanza furnishes the following measurements of Bob Graham:

Height, 5 ft. 11 in.; reach, 72 in.; neck, 15½ in.; chest, normal, 37½ in.; chest, expanded, 41 in.; waist, 30½ in.; biceps, 13½ in.; forearm, 11½ in.; wrist, 7½ in.; thigh, 22 in.; calf, 14½ in.; ankle, 9 in.

The other men measure as follows:
Kid George—Age 24; Irish American; height, 5 ft. 9½ in.; weight, 158; neck, 16 in.; chest, normal, 39 in.; chest, expanded, 40½ in.; reach, 74½ in.; biceps, 12 in.; waist, 33 in.; forearm, 11 in.; wrist, 7 in.; thigh, 21 in.; calf, 13½ in.; ankle, 10 in.

Freck Lyon—Age 19; Irish American; height, 5 ft. 7½ in.; weight, 135; neck, 14½ in.; chest, normal, 37½ in.; chest, expanded, 40½ in.; reach, 69½ in.; biceps, 10½ in.; waist, 30½ in.; forearm, 10½ in.; wrist, 6½ in.; thigh, 19½ in.; calf, 13 in.; ankle, 9 in.

RUNAWAY TEAM KNOCKS CRIPPLE OFF HIS FEET
A team belonging to "Socialist Jake" ran away from Walker's stable on Florence avenue and tore down Main street until it was stopped at the Mizpah hotel after knocking Albert Pierson, a cripple, down. Pierson was slightly injured.

SOUTHERN BOY DEBATES
Louis Somers and Lyster Withers, both Goldfield boys attending the State University, have been chosen alternates to represent that body at the Utah-Nevada intercollegiate debate which occurs April 10 at Salt Lake.

Transportation Lines Warned Not to Move Kelly's Army Into Any Other Territory

(By Associated Press.)

SACRAMENTO, March 11.—With a demoralized, hungry, discouraged and dwindled "army" of unemployed hemmed in by armed peace officers, deputies in Yolo county, across the river, and Sacramento, Contra Costa, Placer and Solano county authorities serving notices forbidding railroads or steamers to transport the crowd within their boundaries, a complex situation is nearer a crisis today.

The only food furnished is that which a few citizens of Sacramento sent over, as the authorities have taken a stand against feeding the band. Neighboring counties are determined not to allow a return of the unemployed and have stationed guards on the county lines to prevent invasion in case an attempt is made. The original 1700 has dwindled to half that number and many escaping parties of three and four are scattering into the country, causing the rural districts worry.

TAMMANY MEN ARE OUSTED BY NEW YORK DEMS

POLITICAL CIRCLES STIRRED UP
OVER THE EXPULSION OF
LEADERS

(By Associated Press.)

NEW YORK, March 11.—Charles Murphy, James Gaffney, Thomas Foley, Thomas Darlington and George Plunkitt, Tammany leaders, were ousted from membership in the National Democratic club "for the best interests of the club and the Democratic party." Political circles are aroused. An attempt at reinstatement will be made.

LARRY SULLIVAN IS NOW FUGITIVE

FORMER GOLDFIELD MAN IS
CHARGED WITH FLEEING
RICH WIDOW

Larry M. Sullivan, well remembered here as the partner of George Graham Rice in the Sullivan Trust Company of unsavory fame, is a fugitive from justice.

Sullivan is accused in a complaint issued by Deputy District Attorney James Bell of swindling Mrs. Laura Rogers, a wealthy Kansas City widow, to whom he was engaged to be married. Mrs. Rogers, who is at present a guest at Hotel Astoria, Los Angeles, estimates her loss as the result of Sullivan's courtship at approximately \$5000. She produced the checks in her possession purporting to show loans to Sullivan in excess of \$3000. Her other losses will bring this amount up to approximately \$5000, she stated.

In the warrant issued by Justice of the Peace Summerfield Sullivan is specifically charged with swindling Mrs. Rogers out of \$334. Six weeks ago Sullivan left for San Francisco. He has not been seen since.

TONOPAH MAN RECEIVES SAD NEWS FROM HOME

Albert Morrison of Tonopah is wanted by Chief of Police Evans to receive a telegram stating that a brother of the Tonopah man had gone insane at Georgetown, Colo. The news could not be delivered until this afternoon, when Evans succeeded in finding the man for whom the message was intended.

One brother, Albert Morrison, was found in Goldfield and another named Gus was located at the Midway house. Neither is able to do anything to help the stricken man, who will become a county charge.

PUBLIC LIBRARY

The following is a list of new books recently added to the Tonopah free public library: "Hagar," by Johnston; "The Great Adventure," by Horriek; "The Heart of the Desert," Wiltide; "Boy With the U. S. Foresters," "A Man's World," Edwards; "Captain Prother's Fortune," Kendall; "Comrade Yotta," Edwards; "A Woman of the Twilight," Ryan; "Danny Flinn," Camp; "Sue Jane," Davison; "At the Foot of the Rainbow," Porter; "The Hand of the Mighty," Kester.

The librarian requests the return of the following books that are missing: "Principles of Mining," by Hoover; "The Iron Trail," by Rex Beach; "The Wind Before the Dawn," Munger; "The Man in Lonely Land," Boshier; "The Amethyst Box," Green.

WHERE, OH WHERE!

The expense of operating Nye county for the past year was \$214,000. Where did they get it? There was a surplus of \$30,000. Who gets that?—Carraza Obelisk.

AN AWFUL STATE OF INDUSTRIAL WARFARE IN COLORADO

REPORT TO CONGRESS WILL
RECOMMEND MOST DRASTIC
CHANGES IN LAWS

(By Associated Press.)

WASHINGTON, March 11.—Chairman Foster of the congressional investigating committee of the Colorado strike said the committee would report drastic recommendations to Congress. After reciting a list of alleged outrages against the strikers he concluded:

"It is a deplorable and shocking situation in Colorado; an awful state of industrial warfare."

The Colorado union of the United Mine Workers telegraphed that men, women and children are homeless in a blizzard of snowstorm as the result of demolishing the tents of the strikers' colony yesterday.

MAY MILL IRON ORE IN NEVADA

BUSINESS MAN OF ST. PAUL,
MINN., CONTROLS PROPERTY
NEAR YERINGTON

Otto Taubert, a business man of St. Paul, Minn., now residing in Reno, has purchased the control of the Minnesota Nevada Copper Mines Company, and it is believed this is the biggest iron proposition in the west, says the Reno Journal. The property consists of twenty claims, is situated in the Yerington mining district, Douglas county. The district is sixteen miles from Yerington, in Churchill canyon, and is also about nine miles from Ludwig.

The property has every indication of also making a copper mine, as the ore assays as high as 64 per cent in the red metal. Millions of tons of iron ore is exposed on the surface and Mr. Taubert is making tests to convert the iron content into pig iron, for which a ready market is to be had not only in Nevada but on the coast and in adjoining states. If the test proves satisfactory it is the intention to have the ore treated at the old Loder mill, which is situated near the gypsum works, east of Reno. At the state fair held here in Reno last September the iron ore exhibit from the Minnesota property was awarded the gold medal.

Pig iron shipped to Reno costs the local foundries about \$20 per ton, and if the plans now being worked out by Mr. Taubert are successful he will be able to supply the product at a greatly reduced price.

SENATOR PITTMAN NOT COMING AT THIS TIME

WASHINGTON, March 11.—Senator Pittman has decided not to return to Nevada, as was his intention a short time ago, as the law matters in which he is interested and which were to come up in the District court of Nye county have gone over to another term of court and he will remain in this city and attend to his official duties.

PREPARING RECEPTION FOR THE INDUSTRIALS

A meeting was held at Reno yesterday afternoon, at which Governor Oddie, Captain Donnelly of the state police, the peace officers of Reno and Washoe county, and a large number of citizens were present, for devising means to head off the threatened invasion of the I. W. W.'s should they attempt to enter Reno.

CANDELARIA MINE ABOUT TO REOPEN UNDER NEW MEN

GEORGE E. THRELFALL SUCCEEDS IN FINANCING A
NEW COMPANY

The old Holmes mine at Candelaria is going to be reopened after a suspension of 22 years, when the property was closed down by the low price of silver under the administration of President Cleveland. The Holmes management had a mill and roaster but it is supposed these will be abandoned and modern methods of cyanide separation substituted.

George E. Threlfall, who has been working on a reorganization for the past year, will be in charge. He has financed a company to handle the mine on a large and economical scale and the output of \$30,000,000 credited to the Holmes mine will have a few more dollars added to the first figures after it resumes running.

LOOKS FOR SISTER LIVING IN TONOPAH

YOUNG MAN FROM THE EAST IN
SEARCH FOR A MISSING
GIRL

Henry M. Eagen of Trenton, N. J., a strapping youth of 25 years, expects to meet his sister this afternoon at 4 o'clock for the first time in fifteen years since they parted from the old home back east. Eagen arrived this morning and immediately took steps to locate his sister, whom he knows as Mrs. Elizabeth Lottridge, and his first inquiry was addressed to the postoffice. There he learned that his sister called daily for her mail and a postal card was dropped in the office making an appointment for 4 o'clock in front of the office.

ELY MAN GOES TO LEAVENWORTH PRISON

Thomas H. O'Neill, a resident of Ely for the past seven years and engaged in the saloon and dance hall business, pleaded guilty to violating the Mann white slave act, according to the Salt Lake Tribune, in the federal court in Salt Lake City Tuesday and was sentenced by Judge Marshall to fifteen months' confinement in the federal prison at Leavenworth, Kas.

O'Neill was tried on one count returned against him by the federal grand jury but the jury disagreed, standing eleven to one for conviction. He was to be tried on the second count next month, it was understood, and the fact that he had appeared in court and pleaded guilty comes as a surprise. The charges against O'Neill were that he had induced two young women to come to Ely for immoral purposes and that he had purchased railroad tickets for them.

BIG PRICE PAID FOR RANCH IN GARDNERVILLE

What is said to be one of the biggest real estate deals ever transacted in Douglas county was consummated last Saturday when Richard Fricke sold the Virginia ranch to Chris Hellwinkel for a sum exceeding \$50,000, says the Gardnerville Courier. The purchase includes approximately 350 acres of the best land in Carson valley, nearly every acre of which is under the highest state of cultivation.

BANK ROBBERS ESCAPE

(By Associated Press.)
ABBOTSFORD, B. C., March 11.—The Canadian Royal Bank branch robbers eluded the posse which surrounded them yesterday and escaped into a thick forest.

MEXICAN REBELS DIVIDING PUBLIC LANDS AMONG VETERANS

(By Associated Press.)
WASHINGTON, March 11.—Officials are notified that Carranza promised to safeguard the lives and property of foreigners throughout the

Nogales district, following Bryan's protest against recent depredations.

(By Associated Press.)
CHIHUAHUA, March 11.—The constitutionalists government has decreed a distribution of public lands among soldiers of the present revolution and disabled veterans of the Madero revolt, and widows and orphans of both rebellions. It is estimated that each beneficiary will receive about 62 acres. None possessing equal resources shall participate in the proposed benefits, the idea being to assist the indigent only. Both town and farm properties are included, veterans having the first choice. This degree has excited great interest.

OLD PROSPECTOR DIES IN HIS CABIN IN WILDERNESS

BLAZED TRAILS THROUGH COLO-
RADO, UTAH AND ROCKY
MOUNTAINS

Cass Hite, miner, pioneer and one of the unique characters of western civilization, was found dead February 19 in his cabin on the Colorado river, 18 miles below the town of Hite, Utah, which was named in his honor. The information was conveyed in a letter received by Ben G. Hite, a nephew. The letter was from John P. Hite, a brother of the deceased.

The first information of the death was received Saturday night in a belated telegram received by B. G. Hite. The message had been carried from Hite to Green River, a distance of 135 miles, and there telegraphed to Salt Lake.

The letter says that a man passing the cabin on the river found the body of an aged miner. He was buried at Hite, where he had spent many years of his life. The burial took place on February 23.

Cass Hite was born March 3, 1845, and came to Utah in 1867. Prior to his coming to Utah he was a reporter on the St. Louis Republic. During his many years' residence in Utah he became a character of considerable note. In the days of the Robbers' Roost outlaw gang his knowledge of the country caused him to be much sought after by officials and peace officers who were endeavoring to capture the brigands and break up the "Roost." He was known as a gun fighter and is declared to have been absolutely fearless; and his relations with the noted bandits of the times and the government were the source of many a story. Though in some instances his motives were questioned, it was generally felt that common prudence and the sense of self preservation justified him in withholding some of the knowledge that came into his possession as to the dark deeds of the desperadoes who made that wild country their haunt and refuge.

"More than a score of years ago he is declared to have received a death-bed confession as to the location of a fabulous rich placer property in the Uinta country. This was long before the country was ever opened up. In spite of many prospecting expeditions that he made to the country he was never able to find the lost mine.

In the spring of 1900 Cass Hite left Salt Lake City for the Colorado river and has never since returned to that city. He located some placer properties along the river and has since continued to work them in a small way, being more or less of a hermit. The year following his departure for the river he came back as far as Green River, which was the last time that he was in a railroad town.

VERDICT FOR NATIONAL MINES CO. IN DAMAGE SUIT

The jury in the case of Redmond vs. the National Mines Company returned a verdict Friday night for the defendant. The second ballot was unanimous for the company. The case occupied the attention of the court and a jury for fifteen days. The suit was brought by Fred Redmond, a former employee of the company, to recover \$21,737 for injuries alleged to have been sustained in the assay office of the company—Humboldt Star.

F. M. MANSON TAKES CHARGE OF SAMPLER

Frank M. Manson, manager of the Western Ore Purchasing Company of this city has accepted the management of the Utah Ore Sampling works. This concern owns ore samplers at Murray, Park City, Silver City and Sandy. It is different in operation from the Western Ore Purchasing Company, for the latter is a purchaser of mine products.

TEMPERATURE REPORT

Highest temperature yesterday, 60; a year ago, 57.
Lowest temperature last night, 42; a year ago, 39.

TAX COLLECTIONS ARE MADE EASY BY NEW FORMS

WORK OF AUDITING MOST AP-
PROVED METHODS

Tax Commissioner Emmet D. Boyle has returned from his official visit to Washoe, Humboldt and Elko counties, where he demonstrated the feasibility of the new method, perfected by the commission for the county assessors.

Mr. Boyle says a better understanding of the new system resulted from his visit. The new roll is a decided improvement over the old method. It had already been adopted in four counties in this state and is in use generally throughout the United States. The work of the auditor is reduced seven fold and that of the tax collector is excess of 30 per cent.

Under this arrangement, together with the budget system which has been required of each county, the reduction of the tax rate, where increased valuations in assessment result, will not be defeated by the claim that the auditor cannot extend the changes in the time allowed by law, an excuse that he could very legitimately make under the old and cumbersome system of the past—Carson Appeal.

PAPPAS IS HELD TO THE DISTRICT COURT

GREEK SLASHER OFFERS NO
NEW EVIDENCE; CASE GOES
TO HIGHER COURT

Billy Pappas was bound over to the district court late yesterday afternoon for assault with a deadly weapon with intent to kill Lillian Prazier. The greater part of the afternoon was occupied by counsel in addresses without developing any new points.

The girl is out of the hospital and is likely to be maimed for life. The use of two fingers is lost owing to the severance of the nerves of the arm.

ST. LOUIS TRAGEDY BEING INVESTIGATED

TEN MORE BODIES RECOVERED
FROM MISSOURI ATHLETIC
CLUB FIRE

(By Associated Press.)
ST. LOUIS, March 11.—Ten bodies were recovered from the ruins of the Missouri Athletic club fire. A hundred workmen are exploring the ruins. A coroner's jury and the city authorities are investigating the cause of the tragedy.

Lord Reading, formerly Sir Rufus Isaacs and now chief justice of England, is said to have been one of the most backward of pupils when a boy at school.

Militants Burn Town Building

(By Associated Press.)
NOTTINGHAM, March 11.—An arson squad of militants fired and destroyed all buildings belonging to the town of Bilecote, a suburb. The loss is many thousands.
